

Opening New Location in Artarmon

Diverse Minds

Diverse Minds opened in July 2012 in response to a high demand for psychological services for children, adolescents and adults with an **autism spectrum condition**, and other adolescent or adult specific social, emotional and behavioural challenges.

The clinic incorporates current **research-based therapies** designed to combat psychological difficulties in a way that utilises the **strengths**, and acknowledges the **challenges** faced by individuals.

The clinic acknowledges **uniqueness** in identity as well as individuality in **needs and values**. Most importantly, Diverse Minds recognises that we all have our own **personal perspective** of the world and it is through **understanding** these perspectives that we can **work together** to tackle the challenges that individuals face in everyday life.

Diverse Minds is delighted to announce that we are now opening a new office in Artarmon within the Central to Health Chiropractor Clinic rooms

We will be operating at Artarmon on Mondays to Thursdays

Our new location

(Entry via Central to Health)

76B Hampden Road Artarmon
NSW 2064
