

## Opening New Location in Leichhardt

### Diverse Minds

Diverse Minds opened in July 2012 in response to a high demand for psychological services for children, adolescents and adults with an **autism spectrum condition**, and other adolescent or adult specific social, emotional and behavioural challenges.

The clinic incorporates current **research-based therapies** designed to combat psychological difficulties in a way that utilises the **strengths**, and acknowledges the **challenges** faced by individuals.

The clinic acknowledges **uniqueness** in identity as well as individuality in **needs and values**. Most importantly, Diverse Minds recognises that we all have our own **personal perspective** of the world and it is through **understanding** these perspectives that we can **work together** to tackle the challenges that individuals face in everyday life.

Diverse Minds is delighted to announce that we are now opening a new office in Leichhardt within the Child Sense Clinic rooms

We will be operating at Leichardt on Mondays to Fridays

#### Our new location

**(Entry via Centre Link Building)**

Level 1, 23 Balmain Road, Leichhardt  
NSW
